# DOMESTIC TRAVEL INSURANCE

## For Groups Going on Missions

TO CARE FOR THE BRIDE OF CHRIST AND THE CHILDREN OF GOD AS THEY GO ON MISSIONS.

### WHY DOMESTIC COVERAGE?

In the past few years, there were two major changes that affected mission trip participants, their families, and the mission sending organizations. These two changes were:

- Higher family deductibles due to healthcare reform
- The alarming increase in faith-based organizations being sued by members and participants

MissionShield was built to address these needs to protect the participating families and the ministries sending the mission teams.

Trip leaders deal with major issues such as legal liability, moral responsibility for the ministry, and the unexpected hardships of families. The organization may have to deal with legal concerns or be obligated to cover out-of-pocket expenses when there is inadequate coverage or support for a traveler during an emergency.

### WHAT IS MISSIONSHIELD?

After 25+ years of insuring international groups, we saw a gap in coverage between the cost of medical bills and what traditional domestic coverage would provide. Deductibles, co-payments, and coinsurance can create gaps in coverage for mission groups when traveling away from home. This led us to research and develop a plan to meet the needs and provide protection for the mission sending organizations. We call our domestic plan MissionShield. It combines insurance benefits and non-insurance benefits that are specifically designed for mission sending organizations **traveling within the U.S.** Our plan is designed to complement and supplement any coverage you may already have in place to help with co-pays, deductibles, and out-of-pocket expenses.

# EXPERIENCES

“As the mission director, I need to know I have a trusted and helpful source that can not only answer all my questions, but can step in on our churches behalf if needed for the small and big emergencies. I require every WHC trip participant to have travel insurance. For such a low cost it is one of the best investments you can make for your mission teams.”
